Hiroshima Remembered: 80 km for 80 years Peace Walk

Join us in walking for peace. 2025 marks the 80th anniversary of Hiroshima and Nagasaki. Led by Mi'gmaq water and land protectors, we commemorate and envision a just world together.

The Peace Walks will begin on September 15 at the Peace Hall in Pugwash and will arrive in Truro on the International Day of Peace, September 21. A core group of walkers will complete the entire route and anyone can join in along the way. We will visit schools, beginning with [Pugwash District High School](#), which remains the only school in Canada that has declared itself a 'nuclear weapons free' school.

We will be walking across Mi'kma'ki to Truro, one of the 52 historic African Nova Scotian communities. Recognizing that truth, reconciliation and reparation are the essence of creating a culture of care and peace, we look forward to Indigenous and African Nova Scotian youth, as well as intergenerational participation from all communities.

Please join us and share this action for peace and justice.
